GOODYEAR

Eagle F1 Asymmetric 6

Test of 11 summer tires

Dimension 235/55 R 19

WORLD RACE

*Race-grade: Each race has different requirements on tire performance with no uniform standard. According to Goodyear's internal test and technical analysis (done on EF1 A6 225/45R17 94Y made in EU and China respectively, IDIADA China, Nov 2023), the EF1 A6 products launched in the Singapore market have a similar level grip with the EF1 A6 (245/45R17 product, made in EU), which showed great grip in Kalayaan Cup endurance race in June 2024.

**Extra control refers to better handling on dry, wet and gravel, Extra safety refers to shorter braking distance on dry surface both based on AutoBild 2024; Extra performance refers to shorter wet circle time based on TyreReviews 2024 on 235/55 R19 size tires. More info on <https://www.goodyear.com.sg/>

GOODYEAR

EAGLE F1 ASYMMETRIC 6

EV READY

Wet Braking Pro TECHNOLOGY

New resin in tread compound allows for more micro-contact and improves wet braking and handling.

Dry Contact Plus TECHNOLOGY

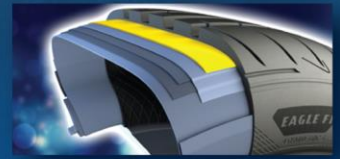

Optimized cavity shape increases contact patch and adapts to the driving style and road surface for excellent dry performance.

Quiet Performance TECHNOLOGY

Noise cancelling pattern: Thinner sipe design on central ribs for lower noise emissions. Radial chamfered grooves to dampen noise.

Duraguard TECHNOLOGY

Robust tire carcass: 2 ply with higher cord density and strength + 2 belts with high tensile steel.
